

**UHS MEDIA CENTER  
VIDEO COLLECTION**

**600s APPLIED SCIENCES & TECHNOLOGY**

608 Acc	Accidental inventions [videorecording] : 10 inventions, 10 extraordinary stories.	DVD	This program reveals the incredible stories behind 10 of the world's most popular inventions. Through interviews, historical photos and 3D graphics, learn about the inventors, how events transpired, and how each discovery changed our everyday lives.
611 Liv	Living body internal defenses [videorecording].	VHS	Shows how the human body responds when the whole body is attacked by bacteria or viruses. Explores the role of the spleen, the lymphatic system, white blood cells, and antibodies. Uses the common cold as an example of the response of the body to a viral attack.
611 Mus	Muscles [videorecording]	VHS	The widespread nature of muscle tissue in the body is introduced as this program looks at the complex movements involved in the exercise of rowing. The nature of the muscle itself is examined, from its gross structure to its detailed microstructure, where chemical energy is harnessed to produce movement.
	Muscular and skeletal systems [videorecording]	VHS	Explores the architecture of the human body. Examines the bones of the skeleton, muscles, individual muscle cells, and the cardiac muscle. Includes animation.
611.018166 Dna	DNA (videodisc) the secret of life/[videorecording] :	DVD	A half-century ago, three teams with three different approaches raced to unravel the structure of DNA. This program blends extensive interviews and firsthand narration with extraordinary graphics to tell the compelling story of how the perhaps unlikely duo of Jim Watson and Francis Crick won that race. Many of the principal figures in the quest discuss their frustrations and insights, including Nobel Laureates Watson and Crick, Maurice Wilkins, and Linus Pauling's son, Peter.
611.6 Hum	The human body (VHS) [videorecording] : excretory system.	VHS	Explains how the excretory system removes wastes in the human body.
611.7 Hum	The human body muscular system [videorecording].	VHS	Explains how electrical signals travel along nerves to striated, smooth and cardiac muscles, how muscle fibers respond by contracting and how the contractions pump blood through arteries, push food through the digestive system, and move the bones.
611.81 Bra	BILL NYE : BRAIN [videorecording (DVD)]	DVD	In this thought-provoking episode some very tricky optical illusions show that the brain doesn't always correctly interpret what it sees. Check out Bill Nye from a whole new angle when he gets an M. R. I. of his brain.
612 Ana	The anatomically correct world of anatomy, part 1/VHS (Videorecording)	VHS	Explains the function of the circulatory, respiratory, digestive, endocrine, and the production systems of human body.
	The anatomically correct world of anatomy, part 2 /VHS (Videorecording)	VHS	Explains the function of the circulatory, respiratory, digestive, endocrine, and the production systems of human body.
612 Dig	Digestion (VHS) [videorecording]	VHS	This program provides a thorough introduction to the structure and functions of the digestive tract.
	Human body (VHS) [videorecording] : digestive system.	VHS	Explores the anatomy and physiology of the nervous system, and reveals how the brain and its extension, the spinal cord, receive sensory information, and how the brain sends reaction impulses out to the body's organs, muscles, and glands.
612 Hom	Homeostasis [videorecording]	VHS	Investigates how the body controls its internal environment.
612 Inc	The incredible human body [videorecording]	VHS	Explores the human body through individual case studies, highlighting cutting-edge medical technology and life-and-death personal dramas.
612 Und	Understanding the human body [videorecording] an introduction to anatomy and physiology	DVD	In this 32-lecture video course, Dr. Anthony Goodman puts a solid understanding of human anatomy and physiology easily. You'll learn to see the structure and functioning of our bodies as an awesome, integrated unity, a perspective that reveals the logic and symmetry of the human organism with compelling clarity.
612.044 Phy	The physiology of exercise [videorecording]	DVD	Shows experiments which measure increases in heart rate, systolic pressure, respiratory rate, and tidal volume at different levels of exercise. Changes in heart and lung activity demonstrate how the exerciser copes with increasing levels of exercise.
612.1 Cir	Circulatory and respiratory systems [videorecording]	VHS	Examines the circulatory system including the heart, blood, and vessels. Looks at the respiratory system and its close relationship with the circulatory system, and shows how the lungs operate. Includes animation.
	Circulatory system [videorecording]	VHS	Explains the functions of the major body systems.
612.1 Hea	The heart [videorecording]	VHS	Considerable detail is shown with the structure and function of the heart.

612.1 Pum	Pumping life: the heart and circulatory system (Videorecording)	VHS	Describes how the body's circulatory system works and its importance to the human body.
612.2 Bre	Breathing [videorecording]	VHS	
612.2 Res	Respiration and circulation: gas exchange, molecular transport [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.
612.3 Dig	Digestion and excretion: absorption, excretion, and homeostasis [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.
	The digestive system (VHS) [videorecording] : down the hatch.	VHS	Follows both the mechanical and chemical processes of digestion that turn food into nutrients and vitamins the body can absorb, and als discusses eating disorders and the importance of healthy eating.
612.4 End	The endocrine system: molecular messengers, chemical control [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.
612.4 Hor	The human body hormones [videorecording].	VHS	A look at hormones which control many critical functions of the body, and the nature and role of hormones.
612.46 Uri	The urinary tract: water! /VHS (Videorecording)	DVD	Explains the functions of water in the human body, including the functions of drinking, breathing, sweating, and urinating. The urinary tract is analyzed in detail.
612.6 In	In the womb [videorecording]	DVD	From the moment of conception, every human embryo embarks on an incredible nine-month journey of development. Now, cutting-edge technology makes it possible for National Geographic Channel's "In the womb" to open a window into the hidden world of the fetus and explore each trimester in amazing new detail. Revolutionary 3-D and 4-D imagery sheds light on the delicate, dark world of a fetus as never before and follows a rare fetoscope operation, performed in utero with the hope of correcting life-threatening complications before birth.
612.6 Mir	The miracle of life videorecording.	DVD	A documentary which shows the actual conception and development of a baby. Looks inside the male and female reproductive organs to show the formation of sperm and the passage of a fertilized egg through the fallopian tube. Uses a microscope to observe DNA, chromosomes, and other minute body details building up to the moment of birth.
612.6 Ody	The odyssey of life. the ultimate journey [videorecording]	VHS	
612.6 Rep	Reproductive systems [videorecording]	VHS	Chronicles fertilization, the union of sex cells from male and female, and, in miraculous detail, the development of a new human life.
612.6 Ult	The ultimate journey [videorecording]	VHS	
612.63 Fro	From conception to birth [videorecording]	VHS	Actual in-utero photography follows the development of the human being from conception to birth.
612.63 Jou	Journey into life [videorecording] : the triumph of creation.	VHS	The program begins with the moment of conception and ends with the miracle of birth.
612.7 Hea	BILL NYE : HEART [videorecording]	DVD	Bill Nye checks out this important muscular pump's function in the body, by pulling nine "Gs" with the United States Navy's Blue Angels and chatting with Seattle Mariner Edgar Martinez.
612.7 Mus	Muscular, skeletal, and integumentary systems: defining our form [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.
612.7 Ski	The skin, its structure and function [videorecording]	VHS	Uses animated diagrams and electron microscopic views to study the protective, insulating, sensory, and defensive roles of the skin. Discusses the characteristics of each skin layer, such as, skin pigmentation, sweat glands, and sebaceous glands, as well as the hair and nails.
612.74 Phy	Physiology [videorecording] : human muscles.	VHS	The human body is more complex and unique and ergonomically efficient than our best mechanical inventions. This video explores the mysteries of motion from our brain to muscle fibers to the microscopic protein filaments that make movement possible.
612.75 Bon	Bones and joints (DVD) [videorecording]	DVD	Program presented by Dr. David Michaely at Boston Children's Hospital introducing topics such as: movement and the human skeleton, structure and function of joints, bone growth, positive and negative effects of exercise, and degenerative diseases.
612.8 Bra	Brain games. Season 2 [videorecording]	DVD	Interactive games and intricate experiments designed to leave viewers rethinking how much faith they are willing to put in everything from memory to multitasking. Host Jason Silva and Deception Specialist Apollo Robbins are teaming up with some of the world's foremost neuroscientists to reveal the incredible inner-workings of the brain.
612.8 Fin	The final mystery (VHS) [videorecording] : what is consciousness?	DVD	In this program, Dr. Greenfield seeks to understand the human body's most remarkable phenomenon-and explains why the existence of each mind's private world of experiences and feelings is actually more incredible than the fact that life on Earth evolved at all. The case of Graham Young, who lost his right-side vision in both eyes and yet is still able to process that visual information, adds support to her thesis.
612.8 Mys	Mystery of the senses [videorecording] / vision.	VHS	An educational discussion of vision, one of the 5 senses.
612.8 Ner	The nervous system: neurons, networks, and the human brain [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.

612.82 Bra	Brain games [videorecording (DVD)]	DVD	Provides a fascinating window into the inner workings of the brain as never before. Through interactive experiments and tricks, revealed is how the brain creates the illusion of a seamless reality. As these revealing experiments provide a unique view into the brain, the world's leading experts explain how and why these tests work. Examines real people with extraordinary brains, an reveals new discoveries about attention, sensory perception, and memory.
	The brain [videorecording] : evolution.	VHS	Looks at the evolution of the brain, how it works, and how its architecture is altered by personal experiences.
	The brain: perception [Videorecording].	VHS	This program explores how we interpret the information our senses bring us.
612.82 Sec	The secret life of the brain. The teenage brain: a world of their own [videorecording] / Episode 3	DVD	This series explores the startling new map of the brain that has emerged from the past decade of neuroscience and shares a revelatory view of this most complicated organ, which now contradicts much of what we previously believed. Narrated by actress Blair Brown, the series tells stories through a mix of personal histories, expert commentary and cutting-edge animation. Viewers will not only learn startling new truths about the brain, they will voyage inside it.
613.2 Hum	Human nutrition. Program 1, Introduction to nutrition [videorecording]	DVD	Educational and entertaining presentation on general nutrition.
613.2 You	Your nutrition style: personalizing the pyramid / (Videodisc)	DVD	Four people get a "nutrition makeover."
613.2083 Tee	Teen nutrition [videorecording] : what's the big debate?	DVD	Explains why nutrition is important. Presents ways that teenagers can improve their eating habits.
613.83 Ecs	Ecstasy : your brain, your body, your choice / [videorecording]	VHS	Introduces basic concepts about the brain and reward pathways, nerve cells, and how drugs like ecstasy produce their various effects.
613.85 Sec	Secrets through the smoke [videorecording] : an educational video featuring Dr. Jeffrey Wigand	DVD	
613.85 Six	60 minutes Jeffrey Wigand parts 1&2 [videorecording]	VHS	Presents Dr. Wigand's claims that his former employer, Brown & Williamson Tobacco, has known about the addictive property of nicotine and the carcinogenic qualities of cigarettes, and has routinely added chemicals to their product that would enhance its effect. After leaving the company, Wigand has been subjected to threats, harassment and a character assassination campaign.
613.85 Wha	What's wrong with tobacco? [videorecording]	VHS	Uses a variety of scenes and speakers to get across a vital message to teen viewers--tobacco kills.
613.9 Con	Contraceptive choices [videorecording]	VHS	A non-judgemental look at the different types of contraceptives available, their effectiveness and instructions on their proper use in preventing pregnancy.
614.1 Pos	Post mortem : the death investigation crisis in America.	DVD	In over 1,300 counties across America, elected coroners, many with no medical or scientific background, are in charge of death investigations. Nationwide there is a severe shortage of competent forensic pathologists to do autopsies. The rate of autopsies -- the gold standard of death investigation--has plummeted over decades. As a result, not only do murders go free and innocent people go to jail, but the crisis in death investigation in America is also a threat to public health.
614.4 Vac	Vaccines [videorecording] : calling the shots	DVD	Diseases that were largely eradicated in the U.S. a generation ago - including whooping cough, measles, mumps - are returning, in part because nervous parents are skipping their children's shots. This takes viewers around the world to track epidemics, explore the science behind vaccinations, and shed light on the risks of opting out. The vast majority of Americans - more than 90% - vaccinate their children. Yet many people have questions about the safety of vaccines.
614.5112 Typ	Typhoid Mary [videorecording (DVD)] : the most dangerous woman in America	DVD	In 1906 in America it was first discovered that humans could transmit typhoid fever. This is a dramatization of the outbreak and a profile of Irish cook Mary Mallon, known as 'Typhoid Mary'. Quarantined against her will, the story reveals the newfound power of health officials to protect the masses, often at the expense of personal liberties.
615.329 Ant	Antibiotics [videorecording]	DVD	"Investigate the ongoing battle between man and microbes. Learn how antibiotics work and find out how germs continually evolve to evade--and survive. Watch as experts finally come clean about the way hand-washing affects germs"- -Container.
616 Med	Medicine [videorecording]	DVD	3 (Producer) This program describes 13 achievements: Vesalius's anatomical charts; Harvey's breakthrough on blood circulation; the identification of blood groups; the development of anesthesia; the discovery of X-rays; Pasteur's establishment of bacteriology; the importance of vitamins; the discovery and isolation of penicillin; the development of sulfa drugs; the invention of vaccines; and the discoveries of insulin, oncogenes, and the human immunodeficiency virus or HIV.
616.02774 Ste	Stem cells [videorecording]	DVD	University of Wisconsin-Madison researchers Timothy Mulcahey, Neal L. First, Lloyd M. Smith, and Robin Alfa Charo are featured in this presentation on stem cells, stem cell research, and the ethics of stem cell research.

616.079 Hum	The human immune system [videorecording] : the fighting edge.	DVD	Discusses how the human body's immune system maintains good health and fights disease. Explores the relationship of the immune system to cancer, allergies, and AIDS, and describes medical treatments. Presents a case study of a baby born with a defective immune system and tells how he was treated so that he could live a normal life.
616.079 Imm	The immunological system: recognition, attack and memory [videorecording]	DVD	A collection of science videos explaining the basics of anatomy.
616.1 Blo	Blood detectives [videorecording].	DVD	
616.4 Hum	Human body: Endocrine system (revised) [videorecording].	VHS	Animation discusses the workings of the endocrine system.
616.83 Tou	Tourette's syndrome [videorecording] : new hope for a cure.	DVD	This program takes a penetrating look at the pathophysiology of Tourette's syndrome and a range of attendant disorders, including self-mutilation, through the cases of Shane Festell, spotlighted in the series "The Mind Traveller"; John Davidson, profiled in "John's Not Mad and "The Boy Can't Help It"; and others. Leading researchers such as Oliver Sacks discuss their findings as well as experimental - and frequently controversial - treatments, including transcranial magnetic stimulation, environmental therapy, low-level doses of THC, nicotine via transdermal patches, and injections of botulinum toxin. The genetic roots of TS are also considered.
616.85 Fig	Fighting back. teenage depression [videorecording]	VHS	This program, for grades 9-14, documents the stories of three teenagers who experienced and overcame depression to help students recognize their own symptoms.
616.85 Sec	The secret life of Mary-Margaret [videorecording] : portrait of a bulimic	VHS	Recounts the story of a beautiful all-American girl, Mary-Margaret Carter, and the true story of her ordeal with bulimia. Chronicles the physical and mental effects of bulimia on the individual and urges those suffering from eating disorders to seek help.
616.86 Add	Addiction [videorecording]	DVD	"Is addiction a disease? Or is it a chosen behavior? Hear from scientists who are studying the brain, psychology, social factors, and genetics. Meet people who live with substance abuse issues"--Container.
616.86 Alc	Alcohol and cocaine--the secret of addiction [videorecording]	VHS	Examines the devastation caused by addiction, its sources, and whether or not it is societal or genetic. Explores the latest medical findings concerning the effects on the mind and body.
616.86 Fac	Faces of addiction [videorecording]	VHS	Three short films of real life stories of addictive behavior and potential solutions.
616.86 Har	Hard choices [videorecording]	VHS	Designed to tell young people about how alcohol and other drug use has negatively affected the lives of many people. Relates the stories of Ben Vereen, Dawn Larson, and chronicles the LSD-related death of the 18 year old son of Al Sichertman.
616.925 Sur	Surviving ebola	DVD	As the Ebola epidemic threatens to spiral out of control, NOVA reports from the hot zone, where courageous medical teams struggle to cope with a flood of victims, to labs where scientists are racing to test vaccines and find a cure. Surviving Ebola includes chilling firsthand interviews of what it's like to catch and survive this terrible affliction.
616.97 Aid	AIDS [videorecording] ending the epidemic	DVD	Examines the changing demographics of people who are testing positive for HIV and AIDS, looks at the progress scientists have made in AIDS treatments, and examines the ongoing work to develop an AIDS vaccine.
616.97 All	Allergy planet [videorecording]	DVD	"This program travels the globe to examine the complex web of causes of what is amounting to an outright allergy pandemic. Topics include food allergies, pollution-induced asthma, allergies caused by cumulative damage to the skin due to overly aggressive hygiene, allergies to dust mites in the home and off-gassing chemicals found in new construction, and the controversial condition MCS, multiple chemical sensitivity. Also addressed are genetically induced asthma; the LEKTI antibody and its role in Netherton syndrome and the multiple allergies that partially characterize that condition; and imbalances in the antibody IGE, used by the immune system both to fight allergens and to bind to bodily parasites. Confusion of allergies with food intolerances and psychologically induced allergy-like histamine releases are considered as well."--container.
616.97 Gro	Growing up in the age of Aids [videorecording]	VHS	Geared toward teenagers, this is a discussion of the issues, facts and fallacies surrounding AIDS, hosted by Peter Jennings. Filmed before a live audience, with the Surgeon General and leading experts answering questions from the audience and callers from around the country.
616.97 Mil	A million teenagers [videorecording].	VHS	The program discusses gonorrhea, chlamydia, herpes, syphilis, and genital warts, as well as presenting a major sequence on AIDS. It explains the physiology of the diseases, their transmission, symptoms and treatment.
616.97 Und	Understanding HIV and AIDS (videodisc) [videorecording]	DVD	Explores questions students have about HIV and AIDS, explaining what it is, and discussing how it is transmitted, treated, and prevented. Includes a teacher's guide.

616.979 Boy	The boy in the bubble [videorecording]	DVD	When David Vetter died at the age of 12, he was already world famous: the boy in the plastic bubble. Here, serious questions are answered. Did doctors, in a rush to save a child, condemn the boy to a life not worth living and instead kill him?
618.2 Pre	Pregnant man: [videorecording] one man's uncensored memoir of pregnancy.	DVD	Follows Gordon Churchwell's transition from a clueless husband to birth partner and parent during his wife's pregnancy.
623.74 Ris	Rise of the drones [videorecording]	DVD	Nova reveals the amazing technologies that make drones so powerful. From cameras that can capture every detail of an entire city at a glance, to swarming robots that can make decisions on their own, to giant air frames that can stay aloft for days on end, drones are changing our relationship to war, surveillance and each other. Discover the cutting-edge technologies that are propelling us toward a new chapter in aviation history.
627.7 Cal	Calypso's search for Atlantis. [videorecording]	VHS	Follows Jacques Cousteau and his crew as they dive in the Aegean Sea in search of clues to the mystery of the legendary lost land of Atlantis.
628.4458 Inv	Invention : recycling /VHS (videorecording)	VHS	Delves into the young, but essential, recycling movement. Features a biodegradable golf tee made of sawdust and applesauce, and a fleece jacket made from recycled plastic bottles.
629.13 Ame	Amelia Earhart [videorecording - DVD] :	DVD	Examines the life of Amelia Earhart the famous woman pilot who set many records before she was mysteriously lost over the Pacific Ocean in 1937.
629.22 Rid	Ride safe, ride smart [videorecording]	DVD	Safety tips for ATV riders.
629.22 Who	Who killed the electric car? [videorecording]	DVD	Chronicles the development of the electric car as an alternative to gas-run cars and examines the car manufacturing industry's fight against the Zero Emission Vehicle mandate passed by California in the 1990's.
629.28 Avo	Avoiding collisions [videorecording] : how to survive the teenage driving years	VHS	Discusses driving skills with teenagers.
629.28 Def	Defensive driving [videorecording]	VHS	"Driving for Dollars", a hypothetical TV game show, is the setting of this humorous video. Three teenagers vie for prizes to specific driving situations.
629.28 Eme	Emergency situations [videorecording]	VHS	Describes some of the most common emergencies, and recommends the proper action to minimize the chance of injury. Students learn what to do when brakes fail, the accelerator sticks, engine overheats, or the battery is dead. Also covers changing a tire, how to react to a blowout, and how to drive safely in rain and high winds.
629.28304 Neo	Neon drunk driving simulator (VHS) [videorecording] : high school video.	VHS	
629.4 Ame	America in space: the first 40 years (Videorecording)	DVD	A documentary view of the U.S. space program, with scenes from its 25 year history, including the 1st 7 astronauts, the Voyager missions, the Mariner and Viking Missions and the Space Shuttle.
629.43 Eye	Eyes in the sky [videorecording].	VHS	Satellites the world's most advanced information gathering technology now are, global positioning systems, weather observatories and more. See how they keep us all globally aware.
629.45 Apo	Apollo 10 [videorecording] : green light for a lunar landing.	VHS	Shows highlights of the second lunar orbital mission by astronauts Stafford, Cernan and Young, featuring views of the earth from space.
	Apollo 11 [videorecording] : eagle has landed.	VHS	Shows the dramatic moment when Neil Armstrong set foot on the moon.
	Apollo 13 [videorecording] : Houston, we have a problem.	VHS	Discusses the problems encountered by this mission.
	Apollo 14 [videorecording] : Mission to Fra Mauro.	VHS	Vivid account of the mission, including problems encountered on the way to the moon and how they were solved.
	Apollo 15 [videorecording] : In the mountains of the moon.	VHS	Mission that marked the debut of the lunar roving vehicle (LRV).
	Apollo 16 [videorecording] : Nothing so hidden.	VHS	Presents a true account of the lunar landing, mission and exploration in the highland region of the moon.
	Apollo 17 [videorecording] : On the shoulders of giants.	VHS	Discusses the problems encountered by this mission.
629.45 One	One small step for man [videorecording]	VHS	A retrospect of the Apollo Space Mission.
631.5233 Gen	Genetically modified foods [videorecording]	DVD	"Is genetic engineering safe: It may be too soon to tell, but that doesn't" stop Bill Nye from exploring the benefits and risks. Students will hear from traditional wheat breeders, from researchers who analyze organic and pesticide-free crops, and from corporations engaged in genetic engineering"--Container.
635 Gar	Garden pond basics [videorecording]	VHS	Tips on planning, building and maintaining a beautiful and health garden pond.
636.5 Egg	Eggs 101 [videorecording] : a video project	DVD	
641.59 Glo	Global eating: learning from other cultures / (Videodisc)	DVD	A study of how other countries eat.
646.6 New	New fabrics then fibers [videorecording]	DVD	
647.957 Sup	Super size me [videorecording].	DVD	

650 Bus	Business communication [videorecording] : listening	DVD	Portrays the value of listening skills in business communication.
	Business communication [videorecording] : reading	DVD	Portrays the value of reading skills in business communication.
	Business communication [videorecording] : speaking	DVD	Portrays the value of speaking skills in business communication.
	Business communication [videorecording] : writing	DVD	Portrays the value of writing skills in business communication.
650.13 Com	Complete job search system (videodisc) [videorecording] : succeeding on the job	DVD	
650.14 Com	Complete job search system (videodisc) [videorecording] : career evaluation	DVD	
	Complete job search system (videodisc) [videorecording] : finding a job	DVD	
	Complete job search system (videodisc) [videorecording] : interviewing for a job	DVD	
	Complete job search system (videodisc) [videorecording] : the right job for your personality	DVD	
650.14 Dud	Dude, I need to find a job [videorecording]	DVD	Join High School senior Will as he attempts to find a job. Learn the importance of a good resume, where to look for jobs, how to 'sell' yourself at an interview, good communication skills, and how to gain the competitive edge and build self-esteem.
650.14 Ide	The ideal resume [videorecording]	VHS	Shows how to structure a resume to sell achievements, skills and abilities, noting the difference between a first-time job search and a career change resume and stressing the importance of the covering letter. Introduces the services available to list an electronic resume on the Internet.
650.14 Int	Interviewing tips for teens (videodisc) [videorecording]	DVD	Directed toward teens looking for part-time, summer, or part-time employment. Shows students how to dress for interviews, deal with stress, sell themselves, follow-up and most importantly, demonstrate self-confidence.
650.14 Sel	Sell yourself (videodisc) [videorecording] : successful job interviewing.	DVD	Shows viewers how to "ace" a tough job interview. See over a dozen dramatic and sometimes humorous re-enactments of common interviewing situations.
650.142 Res	Resumes & cover letters Standing out Program 2, [videorecording]	DVD	Discusses how to make your cover letter stand out and the best way to sell yourself to potential employers.
650.144 Int	Interviewing getting ready. Program 1 [videorecording]	DVD	Explains how to prepare for an interview, and the different types of interviews.
652.3 Int	An introduction to keyboarding [videorecording] : grades 6-12	DVD	
658 Tou	Tough at the top [videorecording] business management styles	DVD	This attention-grabbing program from Australia goes over the top to dramatize five basic business management styles: autocratic, persuasive, consultative, participative, and laissez-faire. [container].
658.4 Int	In the classroom with David Robinson.	DVD	Former NBA basketball star, David Robinson, speaks candidly about his life experiences in terms of becoming a successful person. Topics include love, hate, leadership, balance and success.
658.8 Bra	Brand marketing: why we eat, drink, and wear brand names /VHS (Videorecording)	VHS	Explores the tactics of marketing and the tools it uses, and such things as market research, branding and packaging.
658.8 Com	Communicating with customers [videorecording] : an entry level guide	DVD	
658.8 Ins	Inside Saatchi & Saatchi: a spirited case study (videorecording) [videorecording]	VHS	A look at a company in Brazil from launch to finish.
659.1 Bus	Business ethics [videorecording] : truth in advertising	DVD	
659.14 Bes	Best of commercials of the 50's & 60's [videorecording].	VHS	Compilation of television commercials from the 1950's and 1960's.
660.65 Gen	Genetic engineering [videorecording] : exploring the issues	DVD	Explores the concept, social aspects and ethics of genetic engineering, including current applications, risks to the environment, control, and use on humans.
	Genetic engineering part 1 [videorecording] : how DNA works	DVD	3 (Producer) Addresses the mechanics of DNA replication and the subject of genetic engineering.
662.2 Kab	Kaboom! [videorecording]	VHS	Experience the ultimate chemical reaction -- the explosion. With high speed photography and dramatic reconstruction, NOVA examines the history of explosives and their role in accidents, war and terrorism.
664 Foo	Food processing [videorecording] : a video field trip	DVD	
681.1 Anc	Ancient computer [videorecording].	DVD	Examines the device believed to be the world's first computer discovered in 1900 on a 2,000-year-old Greek shipwreck in the Mediterranean.
684 Bas	Basic shop safety /VHS (Videotape)	VHS	Discusses safe shop procedures. Stresses the importance of wearing protective gear. Covers fire, chemical, and electrical hazards. Includes first aid procedures as well. Accompanying study guide is available.

687 Tre	The trend [videorecording] : where fashion begins	VHS	Presents the introduction to a series of videos on the fashion industry. Focuses on how fashion designers such as Gucci's Tom Ford and Hugo Boss's Werner Baldessarini identify trends. Compares trend-spotting in the fashion industry and the auto industry.
---------	---	-----	--
